- The District reserves the right to monitor all technology activity.
- The school district system has an educational purpose, which includes use of the system for classroom activities, educational research, and professional or career development activities.
- Uses which might be acceptable on a user's private personal account on another system may not be acceptable on this limited-purpose network.
- Access to network services is given to students who agree to act in a responsible manner.
- Parent/guardian permission is required.
- Access is a privilege, not a right. Therefore, based upon the acceptable use guidelines outlined in this document, the administration and staff will deem what is inappropriate use and their decisions are final.
- Upon identification of inappropriate use of network services by the administration, faculty, and staff, access may be denied, revoked, or suspended at any time.
